

Carrying solutions

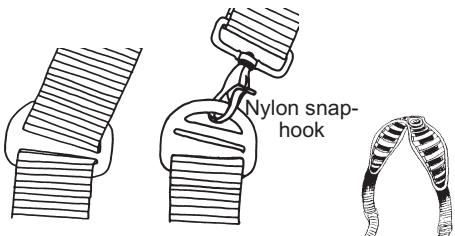

On the shoulder or across the chest, the BSS/APSS/NSS shoulder straps has a unique curved shape that prevents from digging into the wearer's neck while offering optimal weight distribution. NSS and APSS are **patented** shoulder straps.

VG-603-4-DH |  NSS-4-DH

Non slip shoulder strap with nylon buckle for all cases

The NSS is a double sided non-slip thermo-formed rubber strap.

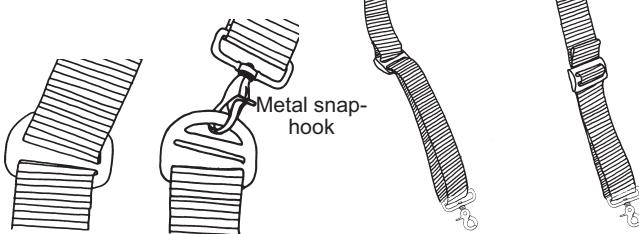

The NSS shoulder straps attach to bags or cases via a rugged, light-weight aluminum buckle, which accepts either a quick-release carabiner or the strap itself. Either option ensures that the strap will cross the shoulder at the optimum angle for comfort and stability

KT VG602DHN |  APSS-DHN

Advanced padded shoulder strap with 2 snap hooks

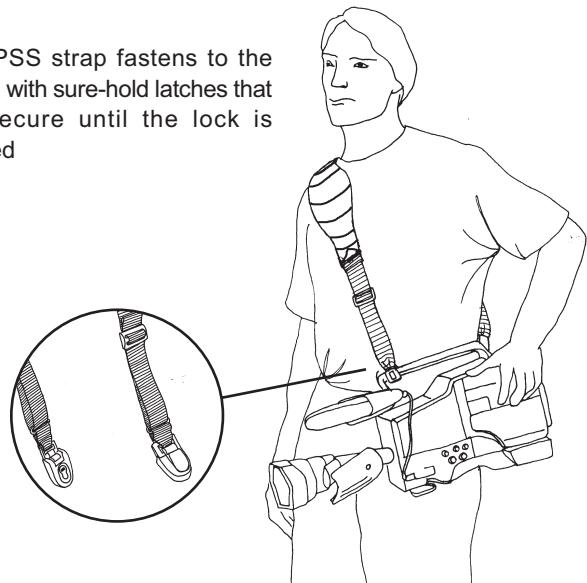

The APSS shoulder strap attaches to a bag or case via a rugged, light-weight aluminum buckle, which accepts either a quick-release carabiner or the strap itself. Either option ensures that the strap will cross the shoulder at the optimum angle for comfort and stability

KT VG602DCCN |  APSS-DCCN

Advanced padded shoulder strap with 2 camera clips

The APSS strap fastens to the camera with sure-hold latches that stay secure until the lock is released

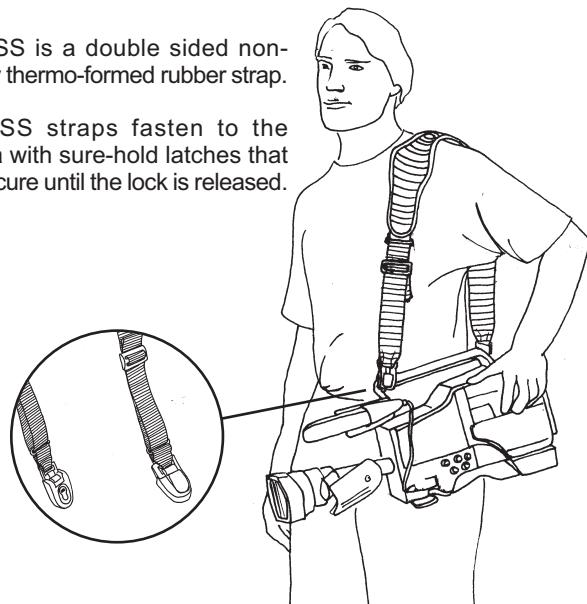

VG-603-4-DCC |  NSS-4-DCC

Non slip shoulder strap with double camera clips for all cameras

The NSS is a double sided non-slippery thermo-formed rubber strap.

The NSS straps fasten to the camera with sure-hold latches that stay secure until the lock is released.
